September - October 2018

Moharram ul Haram 1440 Hijri

Eat together and not separately for the blessings is associated with the company - Prophet Muhammed

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
HOLIDAYS IN INDIA: 13th Sept' 18 - Ganesh Chaturthi 2nd Oct'18 - Gandhi Jayanti		Navu Varas Mubarak 1 11 - Sep - 2018	2 12	3 13	4 14	5 15
6 16	7 17	8 18	9 19	Ashura 10 20	11 21	Siyam Imam Hussain (A.S.) 12 22
13 23	14 24	15 25	16 26	17 27	18 28	19 29
20 30	21 1 - Oct - 2018	22 02	23 03	24 04	25 05	26 06
27 07	28 08	29 09	30 10 - Oct - 2018	Trivia: Moharram in the pre Islamic Arabia was called Safar-e-Awwal. Its name was changed to stress on the fact that all amoral cruel activities are completely forbidden in this month. Moharram literally means 'forbidden' in Arabic. It is considered the 1st month of Islamic Calender because the first moon sighted after the Prophets migration to Medina was Moharram.

ENERGY SAVING: WHAT IS IT & HOW TO DO IT?

“Energy Consumption matters to our pocket first then our environment.”

There is plenty information on **Green Energy** and benefits. The bottom line is that what we save is what we earn. The easiest way to do this is indulge in some self-discipline. If you think you have either exhausted your reserves of discipline or are already too disciplined in the matter, time has come to adopt technology and make more real-time savings happen.

Some key things you can do to make this happen:

1. Switch off gadgets/ lights/ fans/ appliances when not in use.
2. When buying new gadgets check their electrical consumption and understand the implication on your bills first, then buy.
3. A much simpler way is going by the 5 star ratings. The better the efficiency the higher the ratings. To understand how to use these rating, visit our facebook page on tips to understand these ratings.
4. If you really are interested in buying technological advanced products which help in saving even more energy, get in touch with **SRUJANA UNLIMITED NOW!**

October - November 2018

Safar ul Muzaffar 1440 Hijri

The most merciful person is the one who forgives when he is able to take revenge - Imam Hussain AS

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Trivia: Safar is the second month of the Islamic Calender. The month of Safar got its name from this 'emptying of the houses' because one of the meanings of Safar is literally 'Empty'. It was during this month that the tribes went on to raid other tribes and left people 'isfar' (empty).				Pehli Tareek Mubarak 1 11 - Oct - 2018	2 12	3 13

POPULAR ENERGY SAVING PRODUCTS

"Great Leaders do not rush to blame. They instinctively look for solutions."

With the advance in technology there are plenty options for energy saving and energy generation products. Where energy saving products help you reduce your consumption, energy generation units produce energy for your consumption. Here is a set of options for energy saving and energy generation products

Energy Saving Devices

- Solar Chargers
- Solar Water Heaters
- Solar Bikes
- Night Lights
- Led Lights
- Light Sensors
- Solar lights indoor & outdoor
- Solar bilboards

Energy Generation Devices

- Solar Power Generation Units
- Portable Solar Power Generation Units

Other Related Misc Products

- Inverters
- Batteries
- Electricals
- Cables

November - December 2018

Rabi ul Awwal 1440 Hijri

Many Quote Knowledge,
but few note it in their minds.
- Imam Ali A.S

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Trivia: The thirds month of Islamic Calender, the birth month of Prophet Muhammad (PBUH); the last Prophet and Messenger of Allah (SWT). His birthday is celebrated as Milad un Nabi on the 12th of the month. The Prophet not only gave knowledge to the people, but also was one of the first leaders in the world to give equality and rights to the women. SOLAR WATER HEATERS: HOW TO SELECT YOURS?

“There is no greatness where there is no simplicity, goodness and truth”

Solar water heaters are the simplest and the most popular products to all households and industrial units. You must know that there are two popular technologies put to use, Flat Plate Collectors (FPC) and Electrode Tubular Collectors (ETC). When it comes to heating both are good. Nevertheless, the difference can be understood as 1) ETC works better than FPC in colder and sub-zero regions. 2) ETC costs much less than FPC products when choosing a water heater. 3) ETC tubes need as good as no maintenance, not even cleaning, unlike FPC. 4) Last but not the least, ETC uses THERMAL energy of the sun for heating, whereas FPC uses the LIGHT energy of the sun for heating. Once this is sorted, check if the water you receive is hard water or soft water. It makes a difference on the type of model you select.

Remember, a good system will comfortably last you for 10 to 15 years. A misfit one will definitely bring you to tears. Looking to save some energy, call **Srujana Unlimited** now!

SOLAR LIGHTS: OPTIONS & SELECTION

“My definition of ‘innovative’ is providing value to the customer”

Solar lighting offers a wide range these days. When selecting between indoor and outdoor lights, understand your usage, place your budget and then go on to find your best fit. For solar lights, where you are planning to place them is the first big step. If you are planning to place them outdoor, then remember to check if these lights are water proof. Most of these lights give return on investment in less than 1 year, with minimal maintenance. For parts of your office and home, where solar lights are not practical, you can still save energy using sensors. Also, for homes, planning to get into solar energy generation systems for home or office lighting, we insist you control your consumption first with sensors and other devices, and then generate power for the real use that you have. At **Srujana Unlimited**, we have some interesting, innovative pocket friendly sensors as well as solar lights which can ease your mind and your bill. Connect with us to know more about Sensors!

January - February 2019

Jamadil Awwal 1440 Hijri

As water drops make a river,
thoughts make character and faith.
- Imam Ali A.S

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday

28 03	29 04	30 5 - Feb- 2019	<i>Trivia:</i> The fifth month of Hijri Calender, finds its origin from the word 'Jumda.' The word means dry and parched or land devoid of rains, indicating the setting in of dry months then. It is believed that in this month in 1188 Hijri, the Ottoman Empire signed a treaty of Tuzuk Kaynarca, which allowed the Roman Empire then (present day Russia) to have jurisdiction rights over the Christians living in Ottoman Empire.

SENSORS AND ENERGY EFFICIENCY

"The way to build your savings is by spending less each month"

Sensors can be used in residential, commercial and industrial applications. For someone looking for energy savings, it is the most easiest and cost friendly option. Sensors, without disrupting your existing lights electrical points and so on simply helps reduce wastage, which earlier went unnoticed causing bills higher than should actually be. Imagine the savings with led and a bonus of additional savings owning to a device which automatically switches off your lights when no one seems to be using it in the rooms.

This is just one side of sensors, another major benefit is when at night, you need to walk to another room. Your sleepyhead may cheat you, but the sensor on sensing your arrival will illuminate the path you are walking or of the room you enter, without you having to lift a finger.

There are some more benefits, should it interest you, we would be happy to discuss.

To know more on Sensors, energy efficiency, call **Srujana Unlimited** now!

Jamadil Akhar 1440 Hijri

Two things define you:
Your patience when you have nothing,
your attitude when you have everything
- Imam Ali A.S

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
<p>Trivia: The fifth month of Hijri Calender, continuing its influence from the previous month, indicates second month of summer. Knowing something interesting about the crescent moon, which is a part of many Muslim Flags is symbolic version of the red cross as the red crescent. The earliest popular use of this symbol is found by the Ottoman Turks on their flags in 13th C AD.</p>			<p>Pehli Tareek Mubarak</p> <p>1 6 - Feb - 2019</p>	<p>2 07</p>	<p>3 08</p>	<p>4 09</p>

Shabaan ul Karim 1440 Hijri

April - May 2019

The greatest Jihad is to battle your own soul,
to fight the evil within yourself.
- Prophet Muhammad

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
<p><i>Trivia</i> The eighth month of Islam, finds its root were from 'shuba' which means to branch out. In the early days, it was in this month, that the Arabs would branch out in search of water, This search of water is symbolic to the farmer preparing his land before the rains (Ramzaan). So that when it rains, the best crops and fruits can be reaped. Interestingly, it is on the 15th of Shabaan that the direction of Qibla was reverted back to Kaba in Mecca.</p>				<p>HOLIDAYS IN INDIA 14th Mar' 19 - Baisakhi 17th Mar' 19 - Mahavir Jayanti 19th Mar' 19 - Good Friday 21th Mar' 19 - Easter</p>		<p>Pehli Tareek Mubarak 1 6 - Apr - 2019</p>

No ONLY On-Grid, No ONLY Off-Grid. Time for HYBRID!

"You always have two choices: Your Commitment versus Your Fear!"

This is one of the few terminologies that confuses a solar buyer looking for home power generation systems. To help understand better, if you are using solar without any power supply from the local electricity distribution company, then you are using an OFF-GRID System. This is practical to use, where there is no private or government power generation and distribution agency. If you hear someone say ON-GRID system, this is most ideal when you are selling to the local electricity board. The best and the most common to use is that of HYBRID, where you take power from both, the government as well as from your own generation system. When anyone of them is down, your system will automatically consume units from the other. If you have an option, NEVER GO WITH ONLY ONE.

Paanch Salaam Washeq 29 02	Eid ul Fitr ni Raat 30 3 - Jun - 2019	<p><i>Trivia</i> The ninth month of the Islamic Calender is derived from the word, 'Ramadha', meaning intense heat. It is in this month that the Holy Quran was revealed to the Prophet. The Prophet often said that Shaban is his month, while Ramzaan is Allah's month. Fasting during this month is one of the five pillars of Islam.</p>

WHY IS SOLAR ENERGY SO IMPORTANT?

"Passion is energy. Feel the power that comes from focussing on what excites you.."
 Sunray and its heat are the most easily available raw material to earth for energy generation. It is believed that some 174 petawatts (that's 174 followed by 15 zeros) of solar energy reaches the Earth's upper atmosphere. Of this, about a third of that is reflected back into space. From what is absorbed, the Earth's land, sea and atmosphere absorb around 3,850 zettajoules of energy every year – that's 21 zeros after the 3,850! With the given numbers, the amount of energy that the earth absorbs in an hour, the earthlings use it in a year.

There could never have been a cheaper and more efficient fuel than this one.

Coming to business, when you choose to go solar for power generation systems, two things you MUST watch out in your components are of Solar Modules and Inverters. The Efficiency of Solar Modules is important for the conversion of solar energy, while the inverter is a must to convert this DC power to AC power. With inverters, the two most important parameters are its reliability & efficiency..

Urs Mubarak Syedi Abdul Qadir Hakimuddin (RA) 27 30	28 1 - July - 2019	29 2 - July - 2019	Trivia The tenth month of Islamic Calender, finds its name origin in the word "shala" which means "to lift or to carry". During those days, the she-camel was usually carrying a fetus. The first day of this month begins with celebrations of Eid-ul-Fitr, a festivity, where as a reward for the fasting and prayers in Ramzaan, all sins are forgiven.

BUSINESS STRATEGY & CONSULTATIONS

"Innovation is the new competitive advantage..."

At **Srujana Unlimited**, we are focused on providing measurable and deliverable plans. Every business is unique, every business activity requirement is unique. We offer a unique approach where first the goals are understood, outcomes are decided, on the basis of which planning and micro planning happens. Without clarity of what is expected, nothing can be achieved. Accidental benefits are always good, but definitely not reliable. Our end goal is to enrich small and medium enterprises who are largely awaiting a quality service, without disrupting their routine business activity. If you could sit with us for 10 mins, we would definitely tour you into an interesting world of branding, marketing and strategy ideas. All set to keep you apart from competition at coveted position.

Apart from major consultations for strategy, marketing & training, we even offer other designing, printing, communication & training related solutions. Have questions, contact **Srujana Unlimited** now!

SRUJANA UNLIMITED ALL ABOUT..... BUSINESS OPTIMIZATION AND ENERGY EFFICIENCY

"Every once in a while, a new technology, an old problem, & a big idea turn into an innovation."

Srujana Unlimited began with a dream to organize the marketing needs of small and medium enterprises in 2011. With each assignment, we realised that existing resources can be re-arranged and energised without an additional expense. This saves money and gets better quality output. We have had clients from traders, real-estate, logistics, movie production house to even core infrastructure solutions manufacturers. Our consultation domain broadly consists of strategising, training, marketing, internal organization. The finer aspects include collateral designing like brochures, visiting cards, printing, banners, advertisements etc.

Rooting our feet in the Consultations domain, Srujana wants to indulge in earth sustainable solutions, leading to our new business vertical, Sustainable Earth Solutions. This vertical is focused on delivering products and solutions which save energy and improve the life. They help build savings is an additional plus. Our segment of interest is the same. The new addition is of residential and small apartments, who with one household make a big difference to the community, assuring efficient quality services without the high prices.

To know where we fit the best, lets have a cup of coffee together or we can do the typical chai-pe-charcha, call Srujana Unlimited now!
